REFORM IN THE PARTY. The senate of the United States could not adjourn without giving Grant a parling kick. The President returns to the senate a bill withholding his signature, lut after wrestling a whole night with the constitution, like Saul, his benighted mind was illuminated by a new ligh', and he demanded his veto message and claimed the privilege of signing the bill which he had returned without his august signature. The senate told the President he could not recall the message, which was then the property of the senate, and proceeded to pass unanimously the bill over the President's veto. It is evident that Grant is a large sized elephant on the hands of the Radical party, and that they would rejoice to see him drowned in the Potomac. But the President will stick to h s party with all the tenscity of poor folks to their rich kin. The Cincinnati convention indersed Grant and his administration, and the Republican party under Hayes will be nothing but a continuance of the Grant administration. Hayes's nomination by a convention which indersed Grant, and which defeated Bristow, shows that Hayes is now at the head of the Grant party, and as President would do exactly as Grant has done and would do if elected. If President Grant had locked upon public offices as the reward of party services, and had distributed them under the directions of the party leaders, he might not have made a worse administration. Eurrounded with the same gang that controlled the indersed administration of Grant, Hayes will take just the same views of the Presidency. The Republicans pretend to condemn Grant's corruptions. But Mr. Secretary Chandler approves of them highly, and Mr. Chandler is the chairman of Mr. Hayes's campaign committee. Mr. Secretary Cameron approves of them, and Mr. Cameron helped to nominate-actually did nominate-Mr Hayes at Cincinnati. Judge Tatt ap pears to approve of them, and Judge Taft is one of Mr. Hayes's own set, How are we to know that Mr. Hayes's civil and prudence supplant recklesmess and service reform will wash any better than Mr. Gran.'s, or that his adminis- of the public money. If Tilden had tration, brought about through the efforts of Chandler and Cameron, will be an im- the senate Democratic instead of Reprovement upon that in which publican, the amount of administrative Chandler and Cameron bear a retrenchment would have been not less side of the Republican party reminds it | the national debt. Such facts need no | effects of an over-dose of morphine of the man who bored a hole in the bottom of his host to led the billes and carry their own moral tom of his boat to let the bilge-water out. And the appeal of the Republican managers to the public to try such a boat on a four years craise reminds it of the Irishman who kept a ferryboat that showed evidence of being rather leaky. On a personger objecting that he did not vasion of the Black Hills; charge that like to venture in such a leaky craft, the | the Indian war was forced upon the Inboatman replied: "Laky, do you say? dians to prevent a reduction of the Faith, she's as tight as a drum. Don't you see how beautifully she houlds many enumerated outrages by the mili-water?" Reform cannot be averaged by the mili-

ance of a return to honest and capable government. Such an assurance will not be readily 5 and in the second and surroundings of Hayes. He is a part and parcel of the Grant administration. He has been its mivocate, and indurers it. He has sustained its policy, wise or unwise. It is for this reason we entertain the idea that Democratic success is something upon which to count with entire confidence. Hayes refers to Grant's Indorsed administration as an example of the referm administration be would luaugurste. Tilden refers to his reform work in New York as an earnest of the five thousand bales of cotton this seareform he would accomplish as President of the United States.

THE COUNTY AND CONGRESSIONAL CANVASS. A district convention will be held in this city on the seventh of September to nominate a Democratic candidate for congress. Is it not about time that the executive committee was moving in this matter, naming a time for electing or appointing delegates? At the same time that delegates are elected to the congressional convention, would it not be expedient to elect delegates to the Democratic convention called to nominste candidates for the legislature? We will not return rejected communications.

All letters, communications, or anything else for the Appeal, should be addressed in the field, simultaneously with a candidate for congress, so that there d. M. Kearing.

If the Democracy of Shelby county would succeed in electing their ticket to the legislature, they must force into the field the ablest men in the party. Grave duties will devolve upon the next Tennessee legislature. To aid in this important matter, Shelby county should send men to the legislature of known integrity and business capacity. There will be no unseemly squabble in the d'strict convention as to a candidate for congress. Casey Young will have no opposition, He has vindicated the confidence reposed in him by his friends, and is stronger than he was two years ago in the Democratic party, which gave him a nomination and triumphantly elected him.
